Motion nr. 2

Name of the person introducing the motion: Mrs. Corlienke de Jong

On behalf of the party: Fryske Nasjonale Partij

**Motion:** Biodiversity in the new CAP and a fair income for farmers

Taking notice of the proposals of the European Commission regarding the new Common Agricultural Policy (CAP).

Taking into account the report on biodiversity of MEP Demesmaeker from 2014.

Taking into account the report of the EU Agricultural Markets Taskforce from 2016.

Considering that a balanced and responsible agricultural development is in the interest of farmers, citizens, and consumers.

Considering that farmers are important producers of both food, biodiversity and landscape.

Considering that farmers especially farm in areas the EFA advocates for.

Considering that a vibrant countryside and a vivid regional culture is connected with an economically and ecologically healthy environment,

The European Free Alliance Declares that the new CAP:

- Should stimulate farmers to integrate biodiversity in their way of farming in the next period;
- Should make farmers able to earn a better and fair income from their products;
- Will not subsidise genetic manipulation.
